GPO continues to work on editing, consolidating, and updating its various FDLP instructions and manuals into a single online publication. Members of the depository library community wrote fifteen chapters on every aspect of operating and managing a depository library. Seven chapters were posted online for comment. Three more chapters (3, 12, and 15) will be posted soon for comment, while another three (8, 11, and 14) will have final versions posted. Other chapters are still under development. The final consolidated version of the Handbook is expected to be completed this summer.
